Enrollee Rights and Responsibilities

Quality health care and benefits are responsibilities you share with your doctors and your plan. We want you to know your responsibilities and rights. They are based on common sense, courtesy, and honest communication. Please read your certificate or benefits booklet for a full description. If you have a question, concern, or a recommendation on improving AultCare policies for promoting enrollee responsibilities and rights, contact us through our website at www.aultcare.com or call the Service Center at 330.363.6360 or toll free at 1.800.344.8858.

You have a Right to:

- Receive information about the organization, its services, its practitioners and providers, and member rights and responsibilities.
- Receive information about your coverage and services (see your certificate or benefits booklet).
- A list of doctors, hospitals, and other AultCare network providers. Visit our website, www.aultcare.com.
- Be treated with dignity and respect.
- A frank discussion with your doctor about your medical condition, including appropriate and medically necessary treatment options, regardless of cost or benefit coverage and to participate in making decisions about your health care. Your doctors are independent. They are not restricted or prohibited from discussing treatment options with you, including those that are not covered.
- Privacy of your health care and claims information. Your Protected Health Information will be used to pay claims, as permitted by HIPAA and as described in your Notice of Privacy Practices. Protected Health Information will not be disclosed to others without your authorization, except as permitted by HIPAA and state law.
- Ask questions, raise concerns, make complaints, and appeal denials, as explained in your certificate or benefits booklet.
- To make recommendations about AultCare's Enrollee Rights and Responsibilities Policy.
- Request accommodation if you have limited knowledge of the English language.

You have a Responsibility to:

- Bring your AultCare ID card when you go to the doctor, hospital, drug store, or health care provider. It contains important information. Having your card may help save time and prevent mistakes.
- Tell the doctor or nurse about your condition. Tell your doctor what medications you are taking. Answer any questions the doctor or nurse may ask you completely and truthfully. This information may help your doctor form treatment goals and alternatives. Understand your health problems and participate in developing mutually agreed-upon goals.
- Ask questions if you do not understand something about your medical condition and the treatment alternatives (including medications) the doctor is recommending.
- Follow your doctor's medical advice and instructions. Take medications as directed. Let the doctor know if you have a bad reaction. Let your doctor know if your symptoms do not get better, or if they get worse. Schedule recommended follow-up appointments.
- Live a healthy lifestyle.
- Check your benefit chart (schedule of benefits).
- Let your employer know if there are changes with you and your dependents.
- Get all required pre-approvals (pre-certification) and second opinions.
- Ask your employer or call AultCare if you have questions about your coverage or responsibilities.

This list is subject to change.
