Section 1 - Introduction

This directory provides a list of PrimeTime Health Plan's network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage. If you discover an error in our directory, or the provider you are looking for is not listed, please contact Customer Service. Customer Service phone numbers are listed on page 1 of this directory.

The PrimeTime Health Plan Provider Directory is separated by provider specialty and then by county where the provider is located. For those with Part D Prescription coverage, a Pharmacy Directory is published separately and available by request or on our website, www.pthp.com.

We strongly encourage you to choose a **Primary Care Provider** (PCP). Although it is not required, if you select a Primary Care Provider, you will have a doctor who is familiar with your medical history and can coordinate your care. A Primary Care Provider is your partner in helping you make important medical decisions.

The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory. If you have been going to one network provider, you are not required to continue to go to that same provider. In most cases, we do not require a referral from your PCP to see network providers or network specialists. However, some services may require a prior authorization. Please reference Chapter 3 of your Evidence of Coverage for information on how to request prior authorization. Chapter 4 of the Evidence of Coverage explains which services require a prior authorization.

Unless your plan includes out-of-network coverage, you must use network providers except in an emergency or urgent care situations or for out-of-area renal dialysis. If you obtain routine care from out-of-network providers, neither Medicare nor PrimeTime Health Plan will be responsible for the costs. In some cases, you may get covered services from non-network providers with a referral that has been approved by our plan. Chapter 3 of the Evidence of Coverage details how to request a referral and what out-of-network services are covered under the Point of Service option. With the exception of emergencies or urgent care, it may cost more to get care from out-of-network providers.

Our plan offers a Point of Service option (POS) that gives you additional flexibility to use any Medicare-approved provider that is not found within the PrimeTime Health Plan network. The POS option allows members to receive specific services outside of the plan's provider network. This option provides our members with additional choices in obtaining health care services without the plan's normal out-of-network referral rules. Please refer to your Evidence of Coverage for a definition of what services your plan allows under the POS option and what your cost-sharing would be if you choose to see a provider using this option.

Our plan is required to maintain standards for timeliness of access to care (appointment wait times) that meet or exceed CMS's standards. Below are our standards.

- Urgently needed services or an emergency—immediately;
- Services that are not emergency or urgently needed, but you require medical attention—within 7 business days; and
- Routine and preventive care—within 30 business days.

How to submit a bill

When you receive health care services from a provider who is not part of our network, you are responsible for paying your cost-sharing amount and you should tell the provider to bill our plan for the balance of the payment. However, if you have received a bill from the provider, you should not pay the bill but, please send that claim to PrimeTime Health Plan, P.O. Box 6905, Canton, Ohio, 44706, so we can pay the provider the amount they are owed and determine your responsibility, if any. If you have any questions about what to pay a provider or where to send a paper claim, please call our Customer Service Department (phone numbers are listed on page 1).

What is covered if you have a medical emergency?

You may receive covered emergency medical care from the closest available provider worldwide. For Urgent Care you may see any qualified provider when you are outside the plan's service area or when network providers are unavailable. Our plan covers ambulance services in situations where getting to the emergency room in any other way could endanger your health.

If you are seen in the emergency room and are admitted, we will communicate with that provider to manage and follow up on your care.

If your emergency care is provided by a network provider, you are entitled to follow up care to be sure your condition continues to be stable. If your emergency care is provided by an out-of-network provider, you are entitled to one follow-up visit. We will then try to arrange for network providers to take over your care as soon as your medical condition and circumstances allow.

For more information, see the Medical Benefits Chart in Chapter 4 of your Evidence of Coverage.

What is the service area for PrimeTime Health Plan?

How do you find PrimeTime Health Plan providers that serve your area?

The PrimeTime Health Plan Provider Directory is separated by specialty and then by the county. On page 2, you will find a Table of Contents which will help you easily locate providers by specialty.

If you have questions about PrimeTime Health Plan or require assistance in selecting a PCP, please call our Customer Service Department at 330-363-7407 or 1-800-577-5084, Monday through Friday 8 a.m. to 8 p.m. (October 1 - March 31, we are available 7 days a week, 8 a.m. to 8 p.m.) TTY users should call 711. Or, visit www.pthp.com.
